GCSEs: 5 A*s, 1 A, 4 Bs

WORK EXPERIENCE

- 2001 Two weeks work experience based in the design engineer department at Bradbury's in Braintree. Collated and analysed past production data for the company, which the engineering director found to be very useful and insightful.

SKILLS

Computing

I have acquired a wide range of IT package skills including Microsoft Word, Excel and Access. I also have excellent knowledge of other computer packages such as Maple, MatLab and SPSS, which are mathematical packages, and have taught myself how to program in Microsoft Visual Basic and C/C++.

Teamwork

During my degree I have had many opportunities to work in a team, including an assessed group project where the quality of our work was dependent on our ability to collect, discuss and analyse data as a team.

ADDITIONAL INFORMATION

Holder of current driving licence.
