Work your way up

Stories of managing directors who started out as the office junior are either the stuff of careers advice legend or a cliché, depending on your view. Cliché or not, most job-hunters today are not going to be signed up by the employer of their dreams but can still get the job they want, with a little patience.

Advancing by degrees

The suggestion that you don't need a degree for a good job (times2, Mar 14) ignores the overriding benefits of a degree to the individual and to society and the economy as well.
